Cases may be filtered because of
either targets or inputs that are
outside of the specified ranges.
Filtered cases are not included in
the simulated cases count.

Descriptive Statistics of Scale Inputs

	Mean	Std. Deviation	Minimum	Maximum
ChangeInGDP	11177.638	76802.927	.38	15665113.86

Correlations

	ChangeInGDP
ChangeInGDP	1.000

Correlations between simulated
inputs may differ from
correlations specified for those
inputs in the simulation plan.
Excluded fields (fixed inputs and
inputs with categorical
distributions):
ChangeInAdultMortality
ChangeInLifeExpectancy
